Personalised SPELLINGS

A simple resource to use with your whole class or just a few students.

These 'Personalised Spellings' cards could be printed onto card, or laminated and written on with whiteboard pen, in order to be reused.

Either way, use a split pin to attach them upside down in the back of children's writing books so that they can then be turned so that they poke out over the pages, therefore being seen when they write, whatever page they're on.

When marking writing, you can add new spellings to this resource and children can also self-check their own common spelling errors.
