

Keeping up with 1:1 reading in a classroom of children can be hard!

This tracking sheet is designed to help you keep track of who you have read with each term.

Fill in your class names then if you've read with them once in that first week of term, give them a tick. You could, tick in the box more than once for those children you read with more regularly in the week.

This termly overview helps keep an eye out for those children who read more fluently that perhaps get forgotten about a little bit.
