LIGHT
SUPPORT

This is a simple but effective resource for children that struggle to ask for help. If they often need help in lessons but don't actively ask for it, this can be a way of encouraging them to express when they need help. Rather than put their hand up, they simply place the correct card on the table.

Green = I'm ok with this task, I don't need help at the moment

Yellow = I am starting to find this difficult but I will continue to try on my own

Red = Please come to help me when you can
