ABOUT
OUR WORK!

This package is intended to display and celebrate children's work. Although the vines are included, we recommend painting vines on or cutting vines from green paper or card, as it may be simpler.

Alternatively, no vines need be included and you could add the assortment of leaves included to some string, on which children's work is pegged and displayed amongst the cheeky monkeys!

We hope you and your students enjoy this display and if you do use this package, please share pictures with us! We love to see how you use our resources.
