cross it off!
4 in a row - BINGO!
Full house - BINGO!

How to play:

Print the following pages, cut out and shuffle, then hold up the pictures one at a time. Print either the full colour, or low-colour bingo cards, so that you have one set of pictures per child/pair/group.

When children see a picture on their grid, they can cross it out.

4 in a row = BINGO, diagonal, horizontal or vertical.

If you're looking for a longer game, a 'full house' (the whole grid crossed out) can then be your next BINGO. Allow children to continue to call out BINGO for 4 in a row until someone gets a full house.
